Life-Experience

In 2006 my wife and me where gifted with the birth of our first daughter. She was born with cerebral palsy.

This so called nonhealing disease was the key for us to open the doors to the real purpose and meaning of life.

So we asked and became the answers, we knocked and all the doors were opened for us.

Through all the knowledge we gained on our journey from 2006 until now we found the tools to heal our daughter from cerebral palsy.

In 2010 we started the project "Die Lebensplaner" – Life Plan Earth to give other people the chance to find their way to healing on all levels of their life.

In the upcoming seminar I have the honor to share my experience with you.
